# 1. Hettich data package

## Version 5.0

This documentation gives an overview of the Hettich fittings that you get in this package.

Hettich fittings:

The table will show you the order number, the description, the connector name in imos and the catalogue page. For the connectors with design information it is possible to identify if processing is done or DWG's are used.

The first part includes the connectors with constructive information. Along with commercial information it includes the necessary editing groups, DWGs and attributes.

The connectors with constructive information are sub divided in fitting groups. Within each group the connectors are further sorted in ascending order as per the order number.

The second part includes the connectors with general information i.e. only commercial information. These connectors are sorted according to the order number only.

## 2. Connectors with constructive information

# Hinge

Order no.	Description	Name_imos	Page	Work group	DWG
77644	Intermat 9936 W20, Hinge base 7 mm, TH 42, For screwing on	Int_9936_W20_B7_TH42_77644	Page: FFA16_B1_0134	yes	yes
