# 1. Hettich data package

## Version 5.0

This documentation gives an overview of the Hettich fittings that you get in this package.

Hettich fittings:

The table will show you the order number, the description, the connector name in imos and the catalogue page. For the connectors with design information it is possible to identify if processing is done or DWG's are used.

The first part includes the connectors with constructive information. Along with commercial information it includes the necessary editing groups, DWGs and attributes.

The connectors with constructive information are sub divided in fitting groups. Within each group the connectors are further sorted in ascending order as per the order number.

The second part includes the connectors with general information i.e. only commercial information. These connectors are sorted according to the order number only.

## 2. Connectors with constructive information

## Office Furniture

Order no.	Description	Name_imos	Page	Work group	DWG
9143577	Housing with Push to open, aluminium look	Pto_housing_alu_9143577	Page: FFA16_B3_0259		
9143575	Housing with Push to open, black	Pto_housing_black_9143575	Page: FFA16_B3_0259
