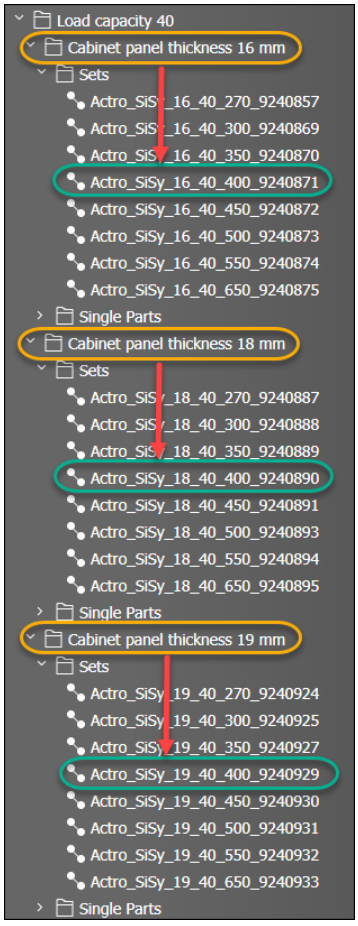
5.How to use the existing connector set for Carcase side thickness 18mm or 16mm



Step 01 --

Go to the existing Hettich connector set of carcase side thickness 19 mm as per drawer requirement

Step 02 --

Replace the drawer runner connector attached in the Hettich connector set with required cabinet panel thickness having same load capacity and Nominal length of the drawer in the existing Hettich connector of said cabinet panel thickness

Step 03 --

Change side panel thickness with required panel thickness in attributes of said connector set
